AUTOMATIC MAKE UP BRUSH CLEANER

P302VIS060

The makeup residue that remains on the makeup brushes changes the way the makeup looks on the complexion and clogs the pores of the skin. It is therefore important to clean them carefully and regularly to have cleaner and healthier skin. This cleaner is able to guarantee an easy and fast cleaning without damaging the bristles of the brushes, thanks to the fast rotation and the PET plastic container that allows you to avoid annoying splashes and stains. 7 silicone adapters included, for all types of brushes with a diameter from 5 to 24 mm.
