Thanks to the waterproof inner container, you can insert fresh flowers or decorative compositions and create a unique atmosphere that is always different and customisable.

With its elegant design and touch function, FLORA allows you to choose between three light tones – warm, natural or cool – and adjust the light intensity with a simple touch. The high-capacity rechargeable battery guarantees over 24 hours of autonomy at minimum intensity.

Perfect as a centrepiece, on shelves or hall furniture, FLORA is a refined piece of furniture, rechargeable via USB and easy to use anywhere.
