appliance combines efficient performance with a compact, modern design. It features two selectable power settings, ideal for adjusting the heat output to suit different needs, and a fan function that promotes even air circulation throughout the room. The adjustable thermostat allows you to easily maintain the desired temperature, ensuring constant comfort. Equipped with an integrated handle, an indicator light and an anti-overheating safety system, it is the ideal choice for anyone looking for reliable and versatile heating. Thanks to its IP21 rating, it is protected against vertical water droplets, making it suitable for a variety of indoor environments.
