P204FER211

Discover a new generation of vertical ironing, more effective and intuitive.

The Beper vertical iron with SteamGrip Technology combines steam and active suction to visibly improve results compared to traditional irons.

Thanks to the innovative system, the suction air draws the fabric towards the heated plate, creating a pressure effect that facilitates the elimination of creases and ensures more uniform, precise, and faster ironing.

The two steam levels effectively smooth fabrics, while the suction function allows for greater control even on the most difficult garments. The result is better ironing, without the need for a board.

The removable 270 ml tank offers up to 15 minutes of continuous steam, ensuring practicality during use. The self-cleaning function facilitates maintenance and maintains performance over time.

Ideal for quickly refreshing and ironing shirts, dresses, and delicate fabrics, it is the perfect solution for those seeking efficiency, speed, and simplicity in a single step.

VERTICAL STEAMER WITH STEAMGRIP TECHNOLOGY

P204FER211

PRODUCT SIZE: 10,5X15,5X26 CM

POWER: 1400 W W

GROSS WEIGHT: 1,64 KG KG

PACKAGING SIZE: 22,8X13X30,80 CM

UNITS X PARCEL: 8
