

ELECTRIC SHOE DRYER ASCIÙ

RI.423

Shoes that are always dry, warm and ready to wear.

Asciù is the Beper electric shoe dryer designed to quickly remove moisture and unpleasant odours from trainers, boots and ski boots, ensuring maximum comfort during the cold season.

Thanks to the even distribution of heat up to 80°C, it effectively dries the inside of footwear, helping to keep them dry and pleasantly warm after sporting activities, or on rainy or snowy days.

Compact, lightweight and easy to use, it is ideal for everyday use at home but also for taking on trips, to the mountains or on winter holidays. The constant heating system ensures practical and safe drying, helping to improve the comfort of your shoes and reduce internal moisture.

Perfect for anyone who wants their shoes to be dry and ready to wear at all times.
