

ELECTRIC CITRUS JUICER

BP.101H

The Beper electric citrus juicer is compact, practical and ideal for getting the most out of every citrus fruit, large or small.

Thanks to its two interchangeable cones, it is perfectly suited to lemons, oranges and grapefruits, ensuring effective juicing.

The dual rotation helps extract all the juice, minimising waste, whilst the built-in grid catches the seeds.

The graduated jug makes it easy to measure the juice, and comes with a hygienic lid to protect it after use.

The non-slip feet ensure maximum stability whilst juicing.

Easy to dismantle and clean, it is the perfect companion for a quick and healthy breakfast every day.
